About Litemove

Litemove is a design & manufacturing company of LED lights for the global bicycle industry.

The company is based in Taiwan; with sales, marketing, and service located in both Germany and Taiwan. We are a young energetic company complimented by a team with several decades of international experience in optics, electronics and mechanical engineering harnessed from the automotive industry.

These key attributes are brought together in our bicycle product design team for the creation of world class products.

We have a simple but clear mission – Innovation / Sustainability/ Quality / Service .

Our R&D facilities are equipped with the latest simulation software, photometer, and testing labs, enabling us to utilize the latest technology to optimize design for innovative and cost-efficient solutions.

We are always searching to improve our solutions and push the limits of what our products are capable of, whilst remaining a **sustainable**.

We recognize that quality is crucial for our products- Right from the start of the design stage, we work closely with our quality control department, analyzing each process closely to ensure that quality is built into every stage of the manufacturing process.

Our customers always expect a quick response- So we have service centers in both Europe & Asia, that allow us to provide quick and professional services to our partners.

Main Products & Service

- E-bike lights: E/e Mark | K-Mark
- AUX lights for motorcycles: ECE / E9
- Reflectors
- Homologation support

Our Management Certifications

IATF-16949 | ISO9001 | QS9000 | ISO14001 |

Optical Technology

Litemove continues on developing innovative headlights and tail lights for electric bicycles. Optical performance is a crucial factor in our lighting design.

We provide extravagant lighting for the importance of safety while riding in any dark environments.

ATIR Series

ATIR

ATIR (Advanced total internal reflection) technology is latest innovation using for automotive lighting. It is a compound lens that combines the best of both a reflector and a lens to maximize the beam shaping capabilities.

Features:

- Design for wider illumination
- High lumens and lux
- Uniform lighting distribution
- Compact in size
- Higher weather resistant capability
- Longer product lifecycle service

MTi Series

Taking its lead from car headlight technology, MTi (Multi-beam integration) lens uses a highly efficient aspheric lens, designed to offer a complex distribution of multi-beam pattern.

MTi®

The aspheric lens is produced with precise plastic moulding, polishing single-point diamond turning, and injection moulding.

As a result, it minimizes the loss of light performance and provides great light exposure for maximum safety for our riders at any time of the day.

MTi^{Plus}

The MTi Plus gives users more visibility while providing dual light (high-beam) options.

The high-beam features brighter exposure that helps your ride on high speed paths with no lights, rural areas, trails, etc., as well as signalling incoming drivers or cyclists.

MTi^{Pro}

The MTi Pro provides better illumination and wider beam distribution for additional value in a headlight.

The dual light (high & low-beam) option is also included to provide advanced and incredible visibility for safety. These features give users the best riding experience while letting them feel responsive in wide and bright visibility in any environment, especially at night.

Best for: high speed paths with no lights, rural areas, mountain, unsurfaced, narrow road trails, etc.

RX Series

RX

The RX reflector is our redefined design of optical technology. It uses a mirrored surface to project a wider angle of LED lighting at a great distance for precise visibility for riders to experience, especially in the city or suburban road in both daytime and nighttime.

RX^{PLUS}

The RX Plus includes a dual light (high & low-beam) function for enhanced visibility for users to use. This feature provides a wide angle of consistent lighting, while providing a great distance of beam distribution. Best used for paths in the city and suburban roads in both daytime and nighttime. Its high-beam function enhances cyclists' awareness with their surroundings, as well as a signal to other road users.

LTi Series

LTi[®]

Similar to an auto car's tail light, LTi (lenticular) lens creates safety and visibility for cyclists from the back.

The lens provides a 3-dimensional appearance and beam patterns, creating a distinctive look that can be seen and noticed from various angles.

Lux: Light output

Electrically Power Assisted Cycle (EPAC)- 25km

Speed Pedelec- 45km

Input voltage range

Complies with EU/ECE Regulations

Complies with German Road Traffic Licensing Regulations

Side visibility from all sides

Aluminum housing material

Thermal conductive material for better heat flow

Ingress Protection rating that classifies the degrees of protection

Dual-light function: High & low-beam

Easy power connector- is an adding function for the light easily and quickly connected to motor system with FE cable solution. Reduce unnecessary redundancy complicated and inaccessible wiring can cause difficulties for mechanics.

Auxiliary trigger connector allows the high beam switch easily routed inside of handle-bar. Reduces the complexity of bicycle assembly and lowers the associated costs while simplifying follow-up maintenance.

Automatic light sensor- is to sense the amount of ambient light present and auto adjust the light output. The function of ALS distinguishes whether your bike is approaching a tunnel or dark area, auto adjust the brightness. it also saves battery consumption.

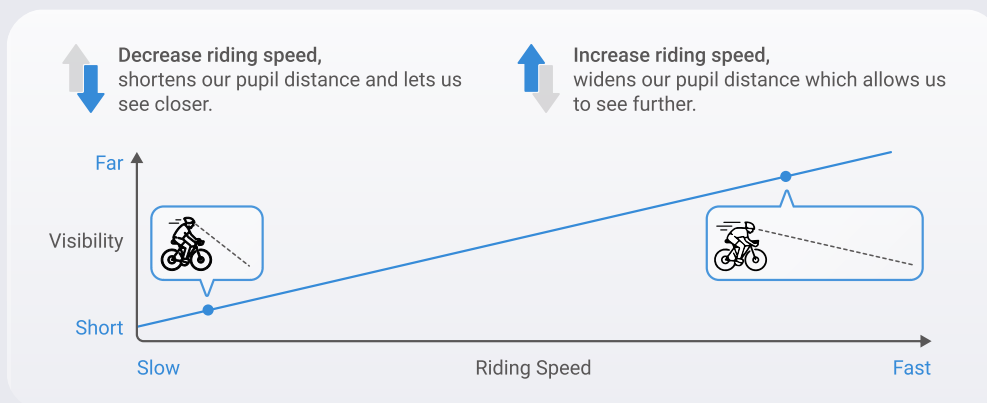

Automatic emergency brake light is a feature that can sense slow or stopped traffic ahead and urgently apply the brakes if the driver fails to respond. Warns the rider/driver of a hard braking event in front, even when the driver's view is obstructed by other vehicles or bad weather conditions. In addition, it enables a vehicle to broadcast a self-generated emergency brake event to surrounding vehicles.

Optical Safety Ideology

We care about your safety. Whether it's the environment or the speed of our ride, it all affects our vision. Having a basic understanding may let riders choose the most fitting headlight for their trails.

Speed Will Affect Our Vision

Our pupil distance (visibility) shifts according to how fast or slow we ride on the trail.

Lights On All-Time Decrease Accidents

Having both headlights & tail lights on e-bikes boost cyclists' visibility and safety from incoming passengers at all time.

Decrease in accidents
with lights on at all times

Importance of Having Proper Lights on

Lights designed with cut-off line and proper brightness, prevents blinding or collisions with other users.

Fatal collisions are due to low-light visibility

Suggested Lights to Use in Certain Scenario

Standard beam (low-beam) with wide beam angles are appropriate for **unsurfaced narrow roads**.

Dual light options (high & low-beam) with wide beam angle is recommended using on **mountain trails** for precise visibility and safety.

Dual light options (high & low-beam) with far distance beam is vital on **highways** and **urban roads**.

Standard beam (low-beam) is ideal for riding in the **city**, while preventing incoming users with excessive glare.

Headlight

E-Bike Headlight Overview

AEW-230

Performance Wide Beam
Designed for MTB riding

- 230 lux/ 950 lumen highly efficient LED lights, with cut-off line beam preventing oncoming eyes from glare
- Up to 10m wide and up to 300m distance of beam visibility ahead
- 2-piece control switch for high-beam function
- IP56- Protects against high pressure water or dust ingress
- Aluminum Pre Casting & CNC housing
- For 25km e-bike / EPAC
- K-Mark & EN-15194-CE compliance

Specification

Model name	AEW-230
Model no.	HKAEW230
S/N	E10
Light output	High beam : 230 lux / 950 lumens Low beam : 170 lux / 550 lumens
Optical technology	MTi Pro
Light source	LED*4
Input voltage (DC)	12V (9V - 16V)
Power consumption	High beam : 15W max. Low beam : 7.3W
Cable diameter	Power : Ø 4mm Switch : Ø 2.55mm
Cable length	Power : 1400 mm Switch : 300mm
IP rating	IP56
Operating temperature (°C)	-25 ~ +70
Material	Aluminum
Weight (w/o cable)	165g
Dimension (WXHXL)	63.1 x 49.9 x 52 mm
Switch bracket / mount	Ø 22.2mm
Reflector (optional)	RFD
Compliance	RoHS / CE / Prop 65
Type of approval	StVZO-K / ISO 6742
Approval number	- K 1973

SEW-170

- 170 lux highly efficient led lights, with cut-off line beam preventing oncoming eyes from glare
- 10m wide and up to 250m distance of beam visibility ahead
- IP56- Protects against high pressure water or dust ingress
- Aluminum CNC housing
- For 25km e-bike / EPAC
- K-Mark & EN-15194-CE compliance

Specification

Model name	SEW-170
Model no.	HKSEW170
S/N	E10
Light output	170 lux / 550 lumens
Optical technology	MTi Pro
Light source	LED*2
Input voltage (DC)	12V (9V - 16V)
Power consumption	7.3W
Cable diameter	Ø 4mm
Cable length	1400 mm
IP rating	IP56
Operating temperature (°C)	-25 ~ +70
Material	Aluminum
Weight (w/o cable)	120g
Dimension (WXHXL)	Ø 46 x 45.8 mm
Switch bracket / mount	N/A
Reflector (optional)	RFD
Compliance	RoHS / CE / Prop 65
Type of approval	StVZO-K / ISO 6742
Approval number	~ K 1973

AC-210 | AC-150

AC-210

- Use new MTi Plus system, which includes dual-beam option (high/low-beam)
- 10.5m wide and up to 300m distance of beam visibility ahead
- Up to 210 lux
- 10.5-16V with a power consumption up to 16 Watt
- 2-piece control switch for high-beam function
- Multiple mounting options in one housing: fork, stem, or handlebar
- IP56- Protects against high pressure water or dust ingress
- Aluminum housing
- For 25km e-bike / EPAC
- K-Mark & EN-15194-CE compliance

AC-150

- Use MTi Plus system, which includes dual-beam option (high/low-beam)
- 8m wide and up to 230m distance of beam visibility ahead
- Up to 150 lux
- 6 ~ 16V with a power consumption up to 13 Watt
- 2-piece control switch for high-beam function
- Multiple mounting options in one housing: fork, stem, or handlebar
- IP56- Protects against high pressure water or dust ingress
- Aluminum housing
- For 25km e-bike / EPAC
- K-Mark & EN-15194-CE compliance

Specification

Model name	AC-210	AC-150
Model no.	AC210D / AC210S / AC210U	AC150D / AC150S / AC150U
S/N	0015	0023
Light output	High beam : 210 lux Low beam : 140 lux	High beam : 150 lux Low beam : 90 lux
Optical technology	MTi Plus	MTi Plus
Light source	LED *2	LED *4
Input voltage (DC)	12V (10.5V - 16V)	12V (6V - 16V)
Power consumption	High beam : 16W max. Low beam : 10W	High beam : 13W max. Low beam : 6W

Approval number	~ K 2388	~ K 1837

SC-150

- Apply with the most modern ATIR optical technology
- 12m wide and up to 250m distance of beam visibility ahead
- 150 lux high brightness and 800 lumens output
- 11V-16V with a power consumption of 14 Watt
- Multiple mounting options in one housing: fork, stem, handlebar, or fender
- IP56- Protects against high pressure water or dust ingress
- Aluminum housing
- For 25km e-bike / EPAC
- K-Mark & EN-15194-CE compliance

Specification

Model name	SC-150
Model no.	SC150D/SC150S/SC150U
S/N	0020
Light output	150 lux/ 800 lumens
Optical technology	ATIR
Light source	LED *1
Input voltage (DC)	12V (11V - 16V)
Power consumption	14W
Cable diameter	Ø 4mm
Cable length	1400mm
IP rating	IP56
Operating temperature (°C)	-25 ~ +50
Material	Aluminum
Weight (w/o cable)	115g
Dimension (WXHXL)	Ø 46 x 40.8 mm
Reflector (optional)	RF1 / RFD
Compliance	RoHS / CE / Prop 65
Type of approval	StVZO-K / ISO 6742
Approval number	

SEC-110

- Embedded with new MTi system for standard cut-off line beam
- 10m wide and up to 210m distance of beam visibility ahead
- 110 lux
- 7.5V-16V with a power consumption of 7.8 Watt
- Multiple mounting options in one housing: fork, stem, handlebar, or fender
- IP56- Protects against high pressure water or dust ingress
- Aluminum housing
- For 25km e-bike / EPAC
- K-Mark & EN-15194-CE compliance

Specification

Model name	SEC-110
Model no.	SEC110D/SEC110S/SEC110U
S/N	0019
Light output	110 lux
Optical technology	MTi
Light source	LED *2
Input voltage (DC)	12V (7.5V - 16V)
Power consumption	7.8W
Cable diameter	Ø 4mm
Cable length	1400mm
IP rating	IP56
Operating temperature (°C)	-25 ~ +50
Material	Aluminum / Plastic
Weight (w/o cable)	85g
Dimension (WXHXL)	Ø 43.5 x 46.9 mm
Reflector (optional)	RF1 / RFD
Compliance	RoHS / CE / Prop 65
Type of approval	StVZO-K / ISO 6742
Approval number	~ K 2380

SE-90 | SE-90A

SE-90

- Highly efficient led lights, with cut-off line beam preventing oncoming eyes from glare
- Up to 8.5m wide and up to 180m distance of beam visibility ahead (SE-90)
- 2 mount options: fork or stem
- IP56- Protects against high pressure water or dust ingress
- For 25km e-bike / EPAC
- K-Mark & EN-15194-CE compliance

SE-90A

- Built-in smart ambient sensor enables variable lumens light output depending on environment condition.
- Standard (90 lux) / Day light (30 lux)
- Auto brightness switch for power saving
- IP56- Protect against high pressure water or dust ingress
- For 25km e-bike / EPAC
- K-Mark and EN-15194 CE compliance

Specification

Model name	SE-90	SE-90A
Model no.	SE90D/SE90U	SE90AD
S/N	0021	0024
Light output	90 lux	Standard: 90 lux Day Light: 30 lux
Optical technology	MTi	MTi
Light source	LED *1	LED *1
Input voltage (DC)	6V (5V - 16V)	6V (5V - 16V)
Power consumption	5W	Standard: 5W Day Light: 1.5W
Cable diameter	Ø 4mm	Ø 4mm
Cable length	1400mm	1400mm

SE-70

- Highly efficient led lights, with cut-off line beam preventing on-coming eyes from glare
- Up to 8m wide and up to 160m distance of beam visibility ahead
- 2 mount options: fork or stem
- IP56- Protects against high pressure water or dust ingress
- For 25km e-bike / EPAC
- K-Mark & EN-15194-CE compliance

Specification

Model name	SE-70
Model no.	SE70D/SE70U
S/N	0018
Light output	70 lux
Optical technology	MTi
Light source	LED *1
Input voltage (DC)	6V (5V - 16V)
Power consumption	4W
Cable diameter	Ø 4mm
Cable length	1400mm
IP rating	IP56
Operating temperature (°C)	-25 ~ +50
Material	Plastic
Weight (w/o cable)	66g
Dimension (WXHXL)	Ø 43.5 x 49 mm
Reflector (optional)	RF1
Compliance	RoHS / CE / Prop 65
Type of approval	StVZO-K / ISO 6742
Approval number	~ K 2379

RX-E90 | RX-E50

- 90 lux (RX-E90) highly efficient led lights, with cut-off line beam preventing oncoming eyes from glare
- Up to 8m wide and up to 180m distance of beam visibility ahead
- 2-piece control switch for high-beam function
- Multiple mounting options
- For 25km e-bike / EPAC
- Compliant with StVZO-K standard

Specification

Model name	RX-E90	RX-E50
Model no.	RXE90	RXE50

AE-260

45km Speed Pedelec

- A auxiliary headlight with uniform lighting distribution
- Up to 8.5m wide and up to 325m distance of beam visibility ahead
- High (driving beam): 680 lumens / Low (passing beam): 600 lumens
- 12V (11V-16V)
- **For L1e/L2e/L3e/L4e/L5e**
- UNECE-R113 Class-C (E-Mark)
- Compliant with CE/ ROHS/ REACH

Specification

Model name	AE-260
Model no.	
S/N	
Light output	High beam (Driving beam) : 680 lumens Low beam (Passing beam) : 650 lumens
Optical technology	MTi Plus
Light source	LED*1
Input voltage (DC)	12V (11V - 16V)
Power consumption	High beam : 17W Low beam : 17W
Cable diameter	Power : Ø 4mm
Cable length	250mm with connector
IP rating	IP67
Operating temperature (°C)	-25 ~ +70
Material	Aluminum
Weight (w/o cable)	106g
Dimension (WXHXL)	Ø 43.5 x 51mm
Compliance	
Type of approval	UNECE R113 Class-C
Approval number	

45km Speed Pedelec

AE-200

- Use MTi Plus system, which includes dual-beam option (high/low-beam)
- 8m wide and up to 280m distance of beam visibility ahead
- Up to 600 lumens
- 9-16V with a power consumption up to 13 Watt
- 2-piece control switch for high-beam function
- Multiple mounting options in one housing: fork, stem, or handlebar
- IP56- Protects against high pressure water or dust ingress
- Aluminum housing
- **For L1e/ L2e/ L3e**
- UNECE R113 Class-B (E-mark) & EN-15194-CE compliance

Specification

Model name	AE-200
Model no.	HEAE200D / HEAE200U/ HEAE200R
S/N	AE200
Light output	High beam (Driving beam) : 600 lumens Low beam (Passing beam) : 500 lumens
Optical technology	MTi Plus
Light source	LED *4
Input voltage (DC)	12V (9V - 16V)
Power consumption	High beam : 13W max. Low beam : 9.6W
Cable diameter	Power : Ø 4mm Switch : Ø 2.55mm
Cable length	Power : 1400 mm Switch : 300mm / 650mm
IP rating	IP56
Operating temperature (°C)	-25 ~ +70
Material	Aluminum
Weight (w/o cable)	120g
Dimension (WXHXL)	Ø 46 x 59.5mm
Switch bracket / mount	Ø 22.2mm
Reflector (optional)	RF1 / RFD
Compliance	RoHS / CE / Prop 65
Type of approval	UNECE R113 Class-B
Approval number	E9 16897

Tail Light

TX3 Carrier Integrated Tail Light Series

The matching design of the two elements allows the light to perfectly follow the curved shape of the carrier for improved aesthetics and wide-angle visibility. It's easy for assembly and maintenance. Available for MIK system.

Options: TX301/ TX302

TX-301

- A tail light with sensor brake and SOS light function (auxiliary retro-reflector available)
- 6-16V with a power consumption of max.1.5 Watt.
- Integrated design to mount with bike's cargo rack (Compatible with MIK system)
- Plug-in cable designed for easy installment and maintenance
- Auxiliary slide-in retro-reflector
- 240 degree wide visibility
- StVZO K-Mark
- For EPAC 25km

Specification

Model name	TX3
Model no.	TX301
S/N	0014
Light output	Brake light : 80000mcd Rear light : 2600mcd
Optical technology	TX3
Light source	LED*48
Input voltage (DC)	12V (6V - 16V)
Power consumption	Brake light : 1.5W Emergency light : 1.5W Rear light : 0.6W
Cable diameter	Ø 3mm
Cable length	1400mm
IP rating	IP56
Operating temperature (°C)	-25 ~ +50
Material	Plastic
Weight (w/o cable)	36g
Dimension (WXHXL)	124.4 x 20.4 x 16.8 mm
Mounting option	TX rack
Reflector (optional)	RF2
Compliance	RoHS / CE / Prop 65
Type of approval	StVZO-K / ISO 6742
Approval number	

TX-302

- A standard tail light (auxiliary retro-reflector available)
- 6-16V with a power consumption of 0.6 Watt.
- Integrated design to mount with bike's cargo rack (Compatible with MIK system)
- Plug-in cable designed for easy installment and maintenance
- Auxiliary slide-in retro-reflector
- 240-degree wide visibility
- StVZO K-Mark
- For EPAC 25km

Specification

Model name	TX3
Model no.	TX302
S/N	0014-1
Light output	2500mcd
Optical technology	TX3
Light source	LED*46
Input voltage (DC)	12V (6V - 16V)
Power consumption	0.6W
Cable diameter	Ø 3mm
Cable length	1400mm
IP rating	IP56
Operating temperature (°C)	-25 ~ +50
Material	Plastic
Weight (w/o cable)	36g
Dimension (WXHXL)	124.4 x 20.4 x 16.8 mm
Mounting option	TX rack
Reflector (optional)	RF2
Compliance	RoHS / CE / Prop 65
Type of approval	StVZO-K / ISO 6742
Approval number	

A black e-bike is shown from a low angle, focusing on the rear section. A red tail light is mounted on the rear rack, glowing brightly. The bike is parked in a dark forest with tall, thin trees in the background. The lighting is dramatic, with the red light providing the main source of illumination in the scene.

TA E-Bike Tail Light

Innovative optical design gives the lamp a three-dimensional appearance and a variety of patterns when viewed from different angles. Easy to securely attach to standard carrier mounts (80 & 50mm) or integrated with a carrier.

Options: TA-KA/ TA-KS

TA-KS | TA-KA

- Carrier integrated rear light with 45000 mcd highly efficient output (TA-KA)
- 240-degree wide visibility
- Includes red LED brake light (TA-KA)
- Chamfered edges to prevent damage on side
- Designed for bicycle's rear carriers (50mm & 80mm)
- IP56- Protects against high pressure water or dust ingress
- For 25km e-bike / EPAC
- K-Mark & EN-15194-CE compliance

Specification

Model name	TA-KS	TA-KA
Model no.	TKSCE	TKACE
S/N	B05	B06
Light output	7200mcd	Brake light : 45000mcd Rear light : 8000mcd
Optical technology	LTi	LTi
Light source	LED*1	LED*2
Input voltage (DC)	12V (6V - 16V)	12V (6V - 16V)
Power consumption	0.5W	Brake light : 4.3W Rear light : 0.5W
Cable diameter	Ø 3mm / 1-2 pins	Ø 3mm / 1-3 pins
Cable length	1400mm	1700mm
IP rating	IP56	IP56
Operating temperature (°C)	-25 ~ +70	-25 ~ +70
Material	Plastic	Plastic
Weight (w/o cable)	33g	31g
Dimension (WXHXL)	125 x 13.5 x 21 mm	125 x 13.5 x 21 mm
Mounting option	50mm & 80mm rack holder	50mm & 80mm rack holder
Reflector (optional)	N/A	N/A
Compliance	RoHS / CE / Prop 65	RoHS / CE / Prop 65
Type of approval	StVZO-K / ISO 6742	StVZO-K / ISO 6742
Approval number	~ K 1930	~ K 1929

TS-SP

Available for

Ø 27.2 | 30.9 | 31.6mm seat posts

- 7200 mcd highly efficient rear light
- 240-degree wide visibility
- Designed for Ø 27.2 | 30.9 | 31.6mm seat posts
- IP56- Protects against high pressure water or dust ingress
- For 25km e-bike / EPAC
- K-Mark & EN-15194-CE compliance

Specification

Model name	TS-SP
Model no.	TKSESP1-316 TKSESP1-272
S/N	B03
Light output	7200mcd
Optical technology	LTI
Light source	LED *4
Input voltage (DC)	6V (5V - 16V)
Power consumption	0.6W
Cable diameter	Ø 3mm
Cable length	1400mm
IP rating	IP56
Operating temperature (°C)	-25 ~ +70
Material	Plastic
Weight (w/o cable)	18g (w/o bracket)
Dimension (WXHXL)	38 x 18 x 24 mm (w/o bracket)
Mounting option	TKSESP1-316 : Ø 31.6 & 30.9mm seat post TKSESP1- 272 : Ø 27.2mm seat post
Reflector (optional)	N/A
Compliance	RoHS / CE / Prop 65
Type of approval	StVZO-K / ISO 6742
Approval number	- K 1693

TS-RK

- 7200 mcd highly efficient rear light
- 240-degree wide visibility
- Designed for bicycle's rear carriers (50mm & 80mm)
- IP56- Protects against high pressure water or dust ingress
- For 25km e-bike / EPAC
- K-Mark & EN-15194-CE compliance

Specification

Model name	TS-RK
Model no.	TKSE-RR800 TKSE-RR500
S/N	B01(RR500) / B02(RR800)
Light output	7200mcd
Optical technology	LTI
Light source	LED *4
Input voltage (DC)	6V (5V - 16V)
Power consumption	0.6W
Cable diameter	Ø 3mm
Cable length	1400mm
IP rating	IP56
Operating temperature (°C)	-25 ~ +70
Material	Plastic
Weight (w/o cable)	TKSE-RR800: 23g TKSE-RR500: 20g
Dimension (WXHXL)	TKSE-RR800 : 96 x 18 x17 mm TKSE-RR500 : 65 x 18 x17 mm
Mounting option	TKSE-RR800: 80mm rack holder TKSE-RR500: 50mm rack holder
Reflector (optional)	RF2
Compliance	RoHS / CE / Prop 65
Type of approval	StVZO-K / ISO 6742
Approval number	~ K 1693

TS-FD

- 7200 mcd highly efficient rear light
- 240-degree wide visibility
- Designed for bicycle's rear fender
- IP56- Protects against high pressure water or dust ingress
- For 25km e-bike / EPAC
- K-Mark & EN-15194-CE compliance

Specification

Model name	TS-FD
Model no.	TKSEFD
S/N	B03
Light output	7200mcd
Optical technology	LTi
Light source	LED *4
Input voltage (DC)	6V (5V - 16V)
Power consumption	0.6W
Cable diameter	Ø 3mm
Cable length	1400mm
IP rating	IP56
Operating temperature (°C)	-25 ~ +70
Material	Plastic
Weight (w/o cable)	18g (w/o adapter)
Dimension (WXHXL)	38 x 18 x 24 mm (w/o adapter)
Mounting option	Universal
Reflector (optional)	N/A
Compliance	RoHS / CE / Prop 65
Type of approval	StVZO-K / ISO 6742
Approval number	- K 1693

TL-FD

- Illuminates 20 lumens of lucent light.
- Integrated solution with bicycle fender
- Wide visibility gives great lucent light from all viewing
- IP56- Protects against high pressure water or dust ingress
- For 25km e-bike / EPAC
- K-Mark & EN-15194-CE compliance

Specification

Model name	TL-FD
Model no.	TLFD
S/N	0005
Light output	20 lumens
Optical technology	TL-K
Light source	LED*16 (Red)
Input voltage (DC)	6V (5V - 16V)
Power consumption	0.6W
Cable diameter	Ø 3mm
Cable length	1400 mm
IP rating	IP56
Operating temperature (°C)	-25~+50
Material	Plastic
Weight (w/o cable)	11g
Dimension (WXHXL)	16.3 x 89.6 x 12.9 mm (w/o bracket)
Mounting option	Bicycle fender
Compliance	RoHS / CE / Prop 65
Type of approval	StVZO-K / ISO 6742
Approval number	- K 2149

Visibility Light

TL Visibility Lights

up to 40 lumens and 75 hours run-time

- Super efficient brightness and run-time
- Different light modes with memory function for various scenarios of riding.
- Built-in USB charge cord.
- Quick mounting system.
- Multiple mounting options: vertical or horizontal on back-packs, messenger bags, or bicycle parts (fork, handlebar, seat post carrier, etc.).
- K-Mark / CE / ROHS compliance

Memory mode

USB A Ready

FE CABLE

FE Cable Solutions

- PVC free cable
- Make a Clean & Neat Assemble
- Hassle free for repair
- Compatible with Litemove headlights with EPC function (easy power connector) .
- Available for Bosch / Shimano / Yamaha / TQ ...

A close-up photograph of a black and orange LITEMOVE device. The device has a textured surface with a pattern of small dots. A logo consisting of two curved lines is visible. The text "LITEMOVE" is printed in white. Below the logo, there is a small black rectangular button. To the right, the text "5° UP/8° BAC" is printed in orange. The word "Accessories" is overlaid in white text on the left side of the image.
